

Marine Cargo

Elevated underwriting throughout the complex and shifting global supply chain.

At Contour, we are redefining service, distribution and data-analytics to deliver elevated underwriting results. We have built an eco-system capable of identifying clients' qualities and ensuring all business is carefully considered, regardless of its size.

Combining deep underwriting knowledge and bespoke technology for Marine Cargo risks, Contour strives to better assess, understand and price business promptly, while providing extensive and tailored coverage options that offer flexibility and resilience. Acknowledging that every business has uniquely different needs and ambitions, we seek to be a long-term partner and enabler to reach those goals and maximise opportunities.

We offer

- USD 60m capacity
- Small minimum premiums
- Empowered decision-makers for a single agreement quote to bind process
- Primary & excess cargo via air, land and sea on a single shipment or annual basis
- Primary stock only
- Excess stock only
- Non-Lloyd's trading hours availability
- Stock throughput – transits and all warehousing points
- Warehouseman's legal liability
- Cargo liability
- Incidental retail stores
- Project cargo (including delay in startup up to 12 months)

At Contour, we have a **broad** appetite to review a **wide range** of industries and products. However, we do have some exclusions and considered interests, see below for more information.

Please get in contact if you have any queries.

At Contour, our specialty lines MGA operates under one unified umbrella, attracting long-term capacity partners with expertise in complex risks. We are empowered, experienced underwriters who share a passion for delivering solutions that put client needs first. And, just as important, we do it with a friendly, approachable style that makes collaboration effortless.

We utilise an MGA model that gives entrepreneurial underwriters the freedom to craft tailored solutions for every client. By embracing the bionic underwriting approach, we blend the art and science of underwriting to create an environment focused on profitable outcomes for our carrier partners.

Our team brings deep industry knowledge and a client-first mindset – expertise you only get from a specialised underwriting partner. If you're facing an underwriting challenge, we're here to help. Our experts deliver the best results for your customers, and our entire business is designed to help you succeed.
